

The Hope After Project aims to bring hope to people who need it the most in their lives.

Our mission is to foster an extensive social network that is user-driven as well as expert-supported, that provides hope, and help, for individuals in distress, and communities in crisis.

Have you, or your loved ones, ever been in a situation that is shrouded in total darkness, that feels completely hopeless? It could be a major illness, a disastrous relationship, sudden unemployment, substance abuse... Yes, we've all been there. What we need the most, in the moments of extreme difficulty, is a ray of hope that pierces through the darkness, and illuminates the way out.

That's why the Hope After Project is here. But we can't do this alone. We need your help! Whether it's sharing your own story, volunteering time, lending expertise, or donating fund, we need your help in all forms, so that we can help others in need.

The globe is the village, now more than ever. We are all in this, together. Friends and strangers, wherever you are, whatever is happening in your life, may the hope be with you, always...
